**SOUTHEAST EMERGENCY
CONSULTANTS**

You Can Count On Us.

In life or death situations you can't afford to hope for the best. With Southeast Emergency Consultants you can count on the best – the best administrators, the best emergency physicians, the best care.

Founded on the principles of democracy and equality, our team of physicians and allied health professionals each have a vested interest in the success of our company and yours. Their long-term commitment to you and each other creates stable relationships with little turnover and a consistently high level of service you can rely on.

Your Team is Our Team

We provide complete emergency medicine services to hospitals and critical care units large and small. Our emergency physicians are some of the best in the business and, as part of your team; we make it our business to ensure your patients get what they need when they need it.

At Southeast Emergency Consultants we team up with your staff to produce long-term sustainable solutions that enhance patient flow by reducing congestion and stress. Keeping the patients' best interest in mind, our on-site medical directors collaborate with hospital administrators to implement state-of-the-art protocols and procedures specifically designed to enhance patient flow through increased staff productivity, streamlined paperwork processes, and reduced wait time. We then measure our results on a continuous basis to consistently evaluate our efforts and elevate our level of service. The end result is a safer, smoother, more efficient operation.

We're Committed to the Community

We treat your emergency services department like it's our emergency services department, because it is. We make our homes in the communities we serve. That's why, in addition to having a vested interest in the quality of care we provide, we are concerned about the overall medical community and personally motivated to raise the standards for commitment, compassion and care. We also consistently strive to achieve the benchmarks set forth by all state and regulatory agencies.

Our Vision

Our vision is to be a hospital's first-choice provider of emergency medical resources delivering excellence in all facets of emergency medicine services including effective, efficient, compassionate care.

Our Mission

Our mission is to deliver exceptional administrative and technical services to hospitals, provide emergency medicine physicians with top-quality administrative services beneficial to their practices, and to generate higher levels of reliability and trust in hospitals and patients through routine customer satisfaction and quality assurance processes.

Our Goals

- Remain true to our business model via democratic governance
- Deliver medical excellence through the most efficient use of resources
- Generate maximum patient satisfaction
- Focus on providing exceptional emergency medical services to patients and hospitals and their staffs.
